What are Value Metrics ?

Metrics that indicate Economic Value

- Cost to fix a bug
- Time to launch a project
- Cost to recruit a candidate
- Value of your OpenSource Brand

Common Themes:

- Metrics used to gauge Competitive Advantage
- Metrics used to guide Business Decisions

Goal: Grow the Open Source Pie

Value Metrics -> Frameworks to Streamline Business Decision Making

Bill Gates has said that his **biggest mistake** at **Microsoft** was allowing Google to develop Android — and it cost the company \$400 billion. "The **greatest mistake** ever is the whatever mismanagement I engaged in that caused **Microsoft** not to be what Android is, [meaning] Android is the standard non-Apple phone form platform. Discussion

What are your interests?

Who should we focus on? (Who cares?)

Would you like to be a part of a value community?

What is the best way to keep you informed?

Who should we partner with?

What metrics are most important to you ?

Etc.
