# Why Do We Care?

It's all about impact...

...and influence

---

# What Are We Seeking?

## Organizational Influence:

How dominant are individual organizations  
in a project?

## Organizational Relationships:

How do organizational partnerships/  
collaborations impact the project?

## Contributor Affiliation Changes:

What are the impact of job changes  
(organizational affiliation changes) on a  
project?

## Organizations Contributing (Over Time):

What is the impact of organizations joining or leaving the project?

**Organization or Volunteer Driven:**  
What is organizational affiliation vs.  
non-organizational affiliation?

## Organizational Diversity:

What is the organizational diversity of contributions?

## Peripheral Organizations:

Who are the drive-by organizational contributors?

## Leadership Organizational Affiliation:

How are leadership positions distributed across organizations?

## Financial Considerations:

How do financial considerations impact the projects?

## Organizational Ownership Distribution:

How is code ownership distributed across organizational and non-organizational contributors?

---

# This is Just the Start

# Thank you

The Open Source Program Office is passionate about, and dedicated to, providing business-useful insights into community management and success for our fellow Red Hat associates.
