The background of the image is a close-up, top-down view of water with many small, concentric ripples. The water has a teal or light blue tint. The ripples are most pronounced in the lower half of the image, creating a textured, shimmering effect. The text is centered horizontally and vertically over the image.

Tech is kind of funny

@baconandcoconut

The human brain is "a kluge"

@baconandcoconut

The background of the slide is a close-up, high-resolution image of water ripples. The water is a deep teal or blue-green color, and the ripples create a complex, textured pattern of light and dark areas across the entire frame. The lighting appears to be coming from above, creating highlights on the crests of the ripples and shadows in the troughs.

**The way we're wired
to think about resources**

@baconandcoconut

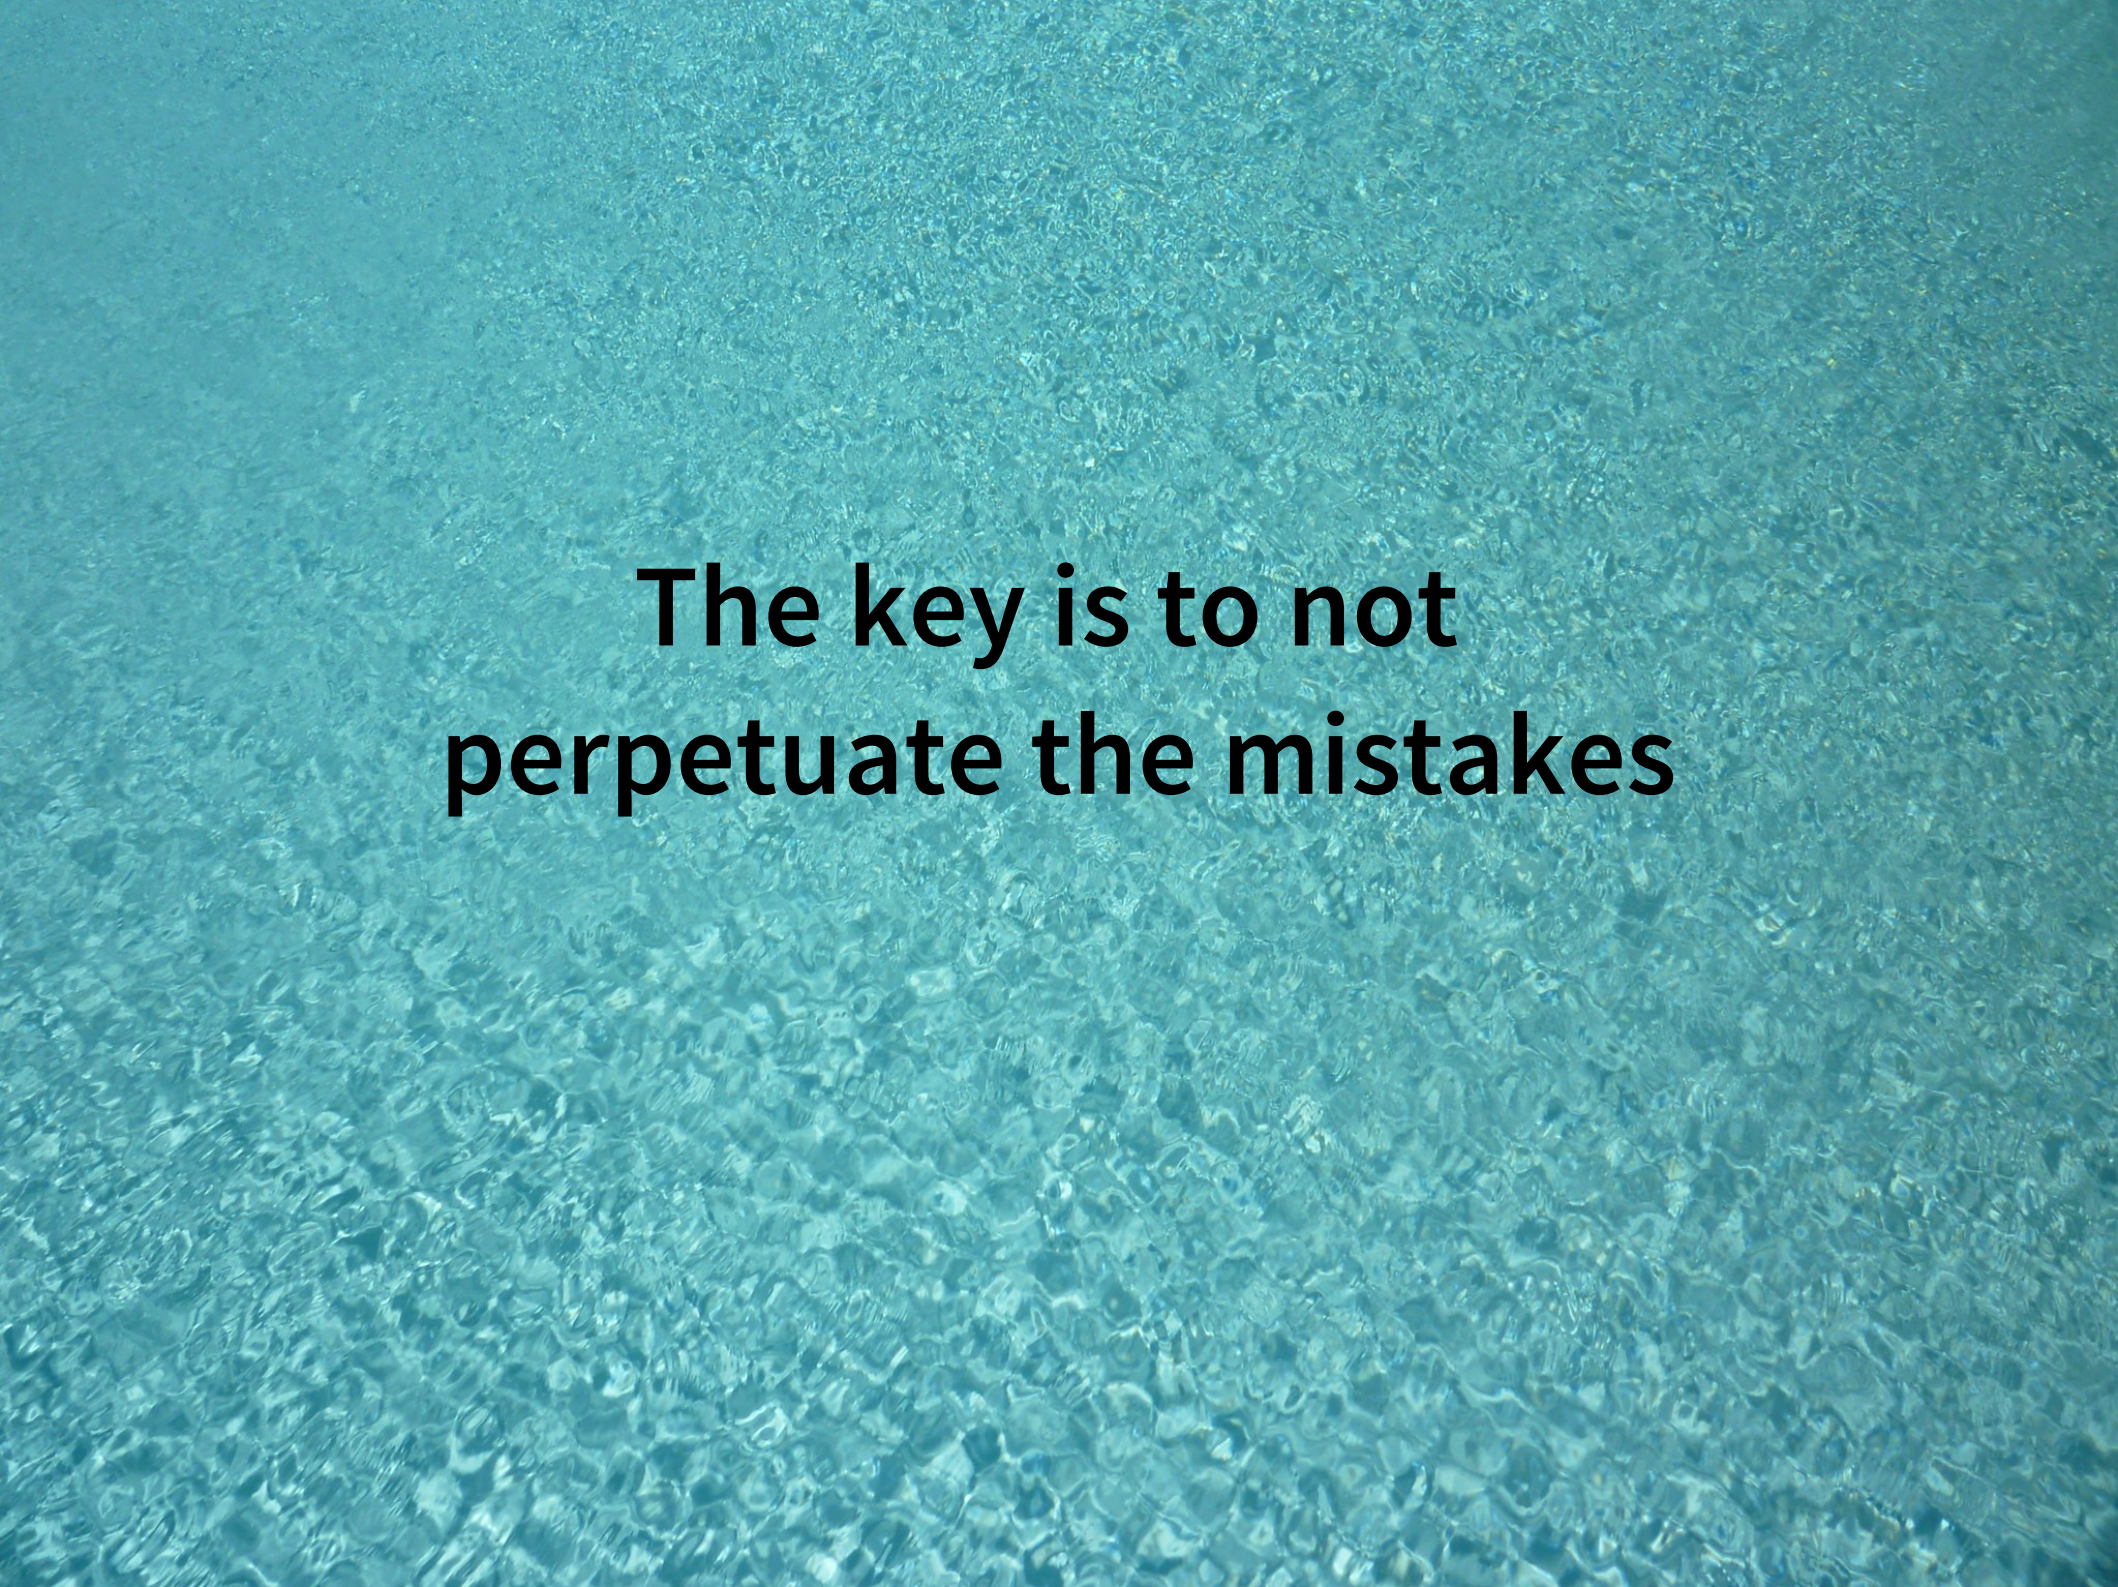

The background of the image is a close-up, top-down view of water with numerous small, concentric ripples. The water has a teal or light blue tint. The ripples are densely packed and create a complex, textured pattern across the entire frame.

**The way we
make memories**

We're not perfect

@baconandcoconut

The background of the image is a close-up, high-resolution shot of water ripples. The water is a deep teal or blue-green color, and the ripples create a complex, textured pattern of light and dark areas across the entire frame. The lighting appears to be coming from above, creating highlights on the crests of the ripples and shadows in the troughs.

**The key is to not
perpetuate the mistakes**

Ways to stretch our brains

@baconandcoconut

The background of the image is a close-up, high-resolution shot of water ripples. The water is a deep teal or blue-green color, and the ripples create a complex, textured pattern of light and dark areas across the entire frame. The lighting appears to be coming from above, creating highlights on the crests of the ripples and shadows in the troughs.

Educate Yourself

@baconandcoconut

**Pay people from
marginalized groups for their
advocacy & expertise**

@baconandcoconut

MONEY

The background of the entire image is a close-up, high-angle shot of water. The water surface is covered in a dense pattern of small, concentric ripples and waves, creating a textured, shimmering effect. The color is a deep, slightly greenish-blue. The lighting appears to be coming from above, casting small highlights and shadows on the water's surface.

Perspective

@baconandcoconut

A large number of yellow rubber ducks are floating in a pool of water. Most are standard yellow ducks with red beaks and blue eyes. Some have unique features: one has a painted face with a mustache, another has a bow, and others have patterns like leopard print or checkered. A small grey duck is visible on the left. The text '@baconandcoconut' is in the top right corner.

The background of the image is a close-up, top-down view of water with many small, concentric ripples. The water has a teal or light blue hue. The ripples are most prominent in the lower half of the image, creating a textured, shimmering effect. The upper half is slightly more uniform in color but still shows subtle variations in tone due to the light reflecting off the water's surface.
